INOmax® EVOLVE™ DS Delivery System Now in More Than 50 Hospitals Nationwide

Conference Call and Webcast Today at 8:30 a.m. ET

DUBLIN, May 6, 2025 /PRNewswire/ -- [Mallinckrodt plc](#) ("Mallinckrodt" or the "Company"), a global specialty pharmaceutical company, today reported its financial results for the first quarter ended March 28, 2025.

"Our first quarter results demonstrate the positive momentum we are building across the Company and reinforce our optimism for the significant strategic benefits of our planned combination with Endo, Inc.," said Siggí Olafsson, President and Chief Executive Officer. "In Specialty Brands, we again achieved double-digit sales growth for Acthar Gel, driven by increased patient demand from the launch of our SelfJect™ device and ongoing commercial investment. We are continuing our multi-year rollout of the INOmax EVOLVE DS delivery system, which is now in more than 50 hospitals across the U.S., and making good progress in our efforts to expand adoption of Terlivaz® (terlipressin) through healthcare provider outreach and engagement. Specialty Generics remains a consistent growth driver for our business, and we continue to see the benefits of our stable supply chain and reputation for quality and reliability in our strong overall performance. In light of our results, we are pleased to reaffirm our full-year guidance today, a sign of our confidence in the business."

Mr. Olafsson added, "Our team has made excellent progress toward completing our merger with Endo to create a global, scaled, diversified pharmaceuticals leader, which we expect to occur in the second half of this year. I am confident that as one company, we will deliver even greater value to our shareholders and customers for the ultimate benefit of the patients we serve."

First Quarter 2025 Financial Results

Mallinckrodt's net sales in the first quarter of 2025 were \$419.9 million, as compared to \$467.8 million in the first quarter of 2024. This reflects a 10.2% decrease on a reported and constant currency basis. Excluding the impact of the Therakos divestiture, total net sales grew by 2.5%.

The Company's Specialty Brands segment reported net sales of \$207.3 million, as compared to \$257.3 million in the first quarter of 2024. This 19.4% decrease includes the impact of the Therakos divestiture. Excluding Therakos, Specialty Brands net sales grew by 4.1%, driven primarily by growth in Acthar Gel and the uptake in SelfJect.

Mallinckrodt's Specialty Generics segment reported net sales of \$212.6 million, as compared to \$210.5 million in the first quarter of 2024. This 1.0% growth was driven by continued strong attention deficit hyperactivity disorder (ADHD) product sales, offset by a decline in the active pharmaceutical ingredient (API) business, particularly Acetaminophen (APAP) products, driven primarily by global competition.

The Company's net loss for the first quarter of 2025 was \$27.7 million, an improvement from a net loss of \$65.4 million in the first quarter of 2024.

Mallinckrodt's Adjusted EBITDA in the first quarter of 2025 was \$102.3 million, as compared to \$144.9 million in the first quarter of 2024, driven by strength in both the Specialty Generics segment and Acthar Gel, largely offset by the impact of the Therakos divestiture, incremental commercial investments for Acthar Gel and the impact of nitric oxide competition in the U.S.

Gross profit in the first quarter of 2025 increased \$38.9 million, or 23.7%, to \$202.9 million, as compared to \$164.0 million in the first quarter of 2024. Gross profit margin was 48.3% in the first quarter of 2025, as compared with 35.1% in the first quarter of 2024.

Mallinckrodt's cash balance at the end of the first quarter of 2025 was \$422.2 million. Total outstanding principal debt was \$864.6 million, a reduction of 47.5% compared to the first quarter of 2024, and outstanding net debt was \$451.4 million, a reduction of 67.6% compared to the first quarter of 2024.

First Quarter 2025 Business Segment Updates & Outlook

Specialty Brands Segment

Acthar Gel net sales increased \$12.6 million, or 12.3%, compared to the first quarter of 2024 to \$115.4 million, driven by growth in the overall market and the successful launch of SelfJect. SelfJect continues to receive positive physician and patient feedback and now accounts for more than 70% of new Acthar Gel prescriptions, reflecting momentum with both new and returning healthcare providers. In light of strong performance in the first quarter, which represented the fifth consecutive quarter of year-over-year growth for the brand, the Company now expects Acthar Gel to grow in the high-single digits in 2025.

Terlivaz net sales increased \$1.4 million, or 23.3%, compared to the first quarter of 2024 to \$7.4 million. The Company remains focused on highlighting the potential benefits of treatment with Terlivaz with healthcare providers, emphasizing the importance of early patient identification and treatment initiation.

INOmax (nitric oxide) net sales decreased \$7.7 million, or 11.0%, compared to the first quarter of 2024 to \$62.5 million. Despite continued competitive pressures in the U.S., the Company delivered net sales growth outside of the U.S., including 12.0% sales growth in Japan compared to the first quarter of 2024. The Company also continues to make progress on its rollout of the INOmax EVOLVE DS delivery system, with more than 400 systems placed in over 50 hospitals as of the end of March, and expects the rollout to continue through the end of 2026.

Specialty Generics Segment

Specialty Generics net sales growth was primarily driven by strong performance in the finished-dosage ADHD products business, offset primarily by global competitive pressures facing the API business, particularly APAP products. Mallinckrodt continues to expect the Specialty Generics segment to deliver flat to low-single digit sales growth in full-year 2025.

Please see "Non-GAAP Financial Measures" included in this release for a discussion of non-GAAP measures and reconciliation of GAAP and non-GAAP financial measures for the first quarter.

Please see the "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections of the Company's Quarterly Report on Form 10-Q for the quarter ended March 28, 2025, to be filed with the U.S. Securities and Exchange Commission (SEC) for additional information.

2025 Financial Guidance

For the full-year fiscal 2025, Mallinckrodt reaffirmed its net sales and Adjusted EBITDA guidance:

	2025 Guidance
Total Net Sales	\$1.7 billion to \$1.8 billion
Adjusted EBITDA	\$480 million to \$520 million

The Company does not provide comparable GAAP measures for its forward-looking non-GAAP guidance or a reconciliation of such measures because the reconciling items described in the definition of Adjusted EBITDA provided below are inherently uncertain and difficult to estimate and cannot be predicted without unreasonable effort. The variability of such items may have a significant impact on our future GAAP results.

About Mallinckrodt

Mallinckrodt is a global business consisting of multiple wholly owned subsidiaries that develop, manufacture, market and distribute

specialty pharmaceutical products and therapies. The Company's Specialty Brands reportable segment's areas of focus include autoimmune and rare diseases in specialty areas like neurology, rheumatology, hepatology, nephrology, pulmonology, and ophthalmology; neonatal respiratory critical care therapies; and gastrointestinal products. Its Specialty Generics reportable segment includes specialty generic drugs and active pharmaceutical ingredients. To learn more about Mallinckrodt, visit www.mallinckrodt.com.

Mallinckrodt uses its website as a channel of distribution of important company information, such as press releases, investor presentations and other financial information. It also uses its website to expedite public access to time-critical information regarding the Company in advance of or in lieu of distributing a press release or a filing with the SEC disclosing the same information. Therefore, investors should look to the Investor Relations page of the website for important and time-critical information. Visitors to the website can also register to receive automatic e-mail and other notifications alerting them when new information is made available on the Investor Relations page of the website.

Non-GAAP Financial Measures

This press release contains financial measures, including Adjusted EBITDA, adjusted gross profit, adjusted selling, general, and administrative ("SG&A") expenses, adjusted research and development ("R&D") expenses, net sales growth (loss) on a constant-currency basis, and net debt, which are considered "non-GAAP" financial measures under applicable SEC rules and regulations.

Adjusted EBITDA represents net income or loss prepared in accordance with accounting principles generally accepted in the U.S. ("GAAP") and adjusted for certain items that management believes are not reflective of the operational performance of the business. Adjustments to GAAP amounts include, as applicable to each measure, interest expense, net; income taxes; depreciation; amortization from intangible assets and right-of use asset resulting from finance leases; combination, integration, and other related expenses; restructuring charges, net; liabilities management and separation costs; divestitures; reorganization items, net; discontinued operations; changes in fair value of contingent consideration obligations; changes in derivative assets and liabilities fair value; unrealized gain or loss on equity investment; share-based compensation; fresh-start inventory related expenses; and other items identified by the Company.

Adjusted gross profit, adjusted SG&A expenses and adjusted R&D expenses represent amounts prepared in accordance with GAAP, adjusted for certain items that management believes are not reflective of the operational performance of the business. Adjustments to GAAP amounts include, as applicable to each measure, the aforementioned items in the Adjusted EBITDA paragraph. The adjustments for these items are on a pre-tax basis for adjusted gross profit and adjusted SG&A expenses.

Segment net sales growth (loss) on a constant-currency basis measures the change in segment net sales between current- and prior-year periods using a constant currency, the exchange rate in effect during the applicable prior-year period.

Net debt of \$451.4 million as of March 28, 2025, reflects \$864.6 million in total debt outstanding and \$9.0 million in undiscounted finance lease liabilities on a GAAP basis less \$422.2 million in cash and cash equivalents (unrestricted cash) on a GAAP basis.

The Company has provided these adjusted financial measures because they are used by management, along with financial measures in accordance with GAAP, to evaluate the Company's operating performance and liquidity. In addition, the Company believes that they will be used by investors to measure Mallinckrodt's operating results. Management believes that presenting these adjusted measures provides useful information about the Company's performance across reporting periods on a consistent basis by excluding items that the Company does not believe are indicative of its core operating performance.

These adjusted measures should be considered supplemental to and not a substitute for financial information prepared in accordance with GAAP. The Company's definition of these adjusted measures may differ from similarly titled measures used by others.

Because adjusted financial measures exclude the effect of items that will increase or decrease the Company's reported results of operations, management strongly encourages investors to review the Company's unaudited condensed consolidated financial statements and publicly filed reports in their entirety. A reconciliation of certain of these historical adjusted financial measures to the most directly comparable GAAP financial measures is included in the tables accompanying this release.

Further information regarding non-GAAP financial measures can be found on the Investor Relations page of the Company's website.

Information Regarding Forward Looking Statements

Statements in this communication that are not strictly historical may be "forward-looking" statements within the meaning of the Private Securities Litigation Reform Act of 1995, and involve a number of risks and uncertainties.

There are a number of important factors that could cause actual events to differ materially from those suggested or indicated by such forward-looking statements and you should not place undue reliance on any such forward-looking statements. These factors include risks and uncertainties related to, among other things:

- (i) transaction-related risks, including the parties' ability to successfully integrate our business and Endo's business and unanticipated costs of such integration, which may result in the combined company not operating as effectively and efficiently as expected; uncertainties related to a future separation of the combined generics pharmaceuticals businesses of Mallinckrodt and Endo and Endo's sterile injectables business; the risk that the expected benefits and synergies of the proposed transactions may not be fully realized in a timely manner, or at all; the risk associated with Mallinckrodt's and Endo's ability to obtain the approval of their shareholders and stockholders, respectively, required to consummate the

proposed business combination transaction (including the fact that it may not be completed on the anticipated timeline or at all); the risk that the conditions to the proposed business combination transaction may not be satisfied (or waived to the extent permitted by law) on a timely basis or at all or the failure of the proposed business combination transaction to close for any other reason or to close on the anticipated terms, including the intended tax treatment; the risk that any regulatory approval, consent or authorization that may be required for the proposed business combination transaction may not be obtained or may be obtained subject to conditions that are not anticipated; the occurrence of any event, change or other circumstance that could give rise to the termination of the proposed business combination transaction; unanticipated difficulties, liabilities or expenditures relating to the proposed transactions; the effect of the announcement, pendency or completion of the proposed transactions on the parties' business relationships and business operations generally; certain restrictions on the ability of Mallinckrodt and Endo to pursue certain business activities or strategic transactions during the pendency of the proposed business combination transaction; the effect of the announcement, pendency or completion of the proposed transactions on the long-term value of Mallinckrodt's ordinary shares and Endo's common stock; risks that the proposed transactions may disrupt current plans and operations of Mallinckrodt and Endo and their respective management teams and potential difficulties in hiring, retaining and motivating employees as a result of the proposed transactions; risks related to our increased indebtedness as a result of the proposed business combination transaction; significant transaction costs related to the proposed business combination transaction; potential litigation relating to the proposed transactions that could be instituted against Mallinckrodt, Endo or their respective officers or directors; rating agency actions and Mallinckrodt's and Endo's ability to access short- and long-term debt markets on a timely and affordable basis; and risks related to the financing in connection with the transaction;

- (ii) risks related to Mallinckrodt's business, including potential changes in Mallinckrodt's business strategy and performance; exposure to global economic conditions and market uncertainty; Mallinckrodt's initiative to explore a variety of potential divestiture, financing and other transactional opportunities; the exercise of contingent value rights by the Opioid Master Disbursement Trust II (the "Trust"); governmental investigations and inquiries, regulatory actions, and lawsuits, in each case related to Mallinckrodt or its officers; Mallinckrodt's contractual and court-ordered compliance obligations that, if violated, could result in penalties; compliance with and restrictions under the global settlement to resolve all opioid-related claims; matters related to Acthar Gel, including the settlement with governmental parties to resolve certain disputes and compliance with and restrictions under the related corporate integrity agreement; the ability to maintain relationships with Mallinckrodt's suppliers, customers, employees and other third parties following the emergence from the 2023 bankruptcy proceedings; scrutiny from governments, legislative bodies and enforcement agencies related to sales, marketing and pricing practices; pricing pressure on certain of Mallinckrodt's products due to legal changes or changes in insurers' or other payers' reimbursement practices resulting from recent increased public scrutiny of healthcare and pharmaceutical costs; the reimbursement practices of governmental health administration authorities, private health coverage insurers and other third-party payers; complex reporting and payment obligations under the Medicare and Medicaid rebate programs and other governmental purchasing and rebate programs; cost containment efforts of customers, purchasing groups, third-party payers and governmental organizations; changes in or failure to comply with relevant laws and regulations; any undesirable side effects caused by Mallinckrodt's approved and investigational products, which could limit their commercial profile or result in other negative consequences; Mallinckrodt's and its partners' ability to successfully develop, commercialize or launch new products or expand commercial opportunities of existing products, including Acthar Gel (repository corticotropin injection) SelfJect™ and the INOmax Evolve DS delivery system; Mallinckrodt's ability to successfully identify or discover additional products or product candidates; Mallinckrodt's ability to navigate price fluctuations and pressures, including the ability to achieve anticipated benefits of price increases of its products; competition; Mallinckrodt's ability to protect intellectual property rights, including in relation to ongoing and future litigation; limited clinical trial data for Acthar Gel; the timing, expense and uncertainty associated with clinical studies and related regulatory processes; product liability losses and other litigation liability; material health, safety and environmental laws and related liabilities; business development activities or other strategic transactions; attraction and retention of key personnel; the effectiveness of information technology infrastructure, including risks of external attacks or failures; customer concentration; Mallinckrodt's reliance on certain individual products that are material to its financial performance; Mallinckrodt's ability to receive sufficient procurement and production quotas granted by the U.S. Drug Enforcement Administration; complex manufacturing processes; reliance on third-party manufacturers and supply chain providers and related market disruptions; conducting business internationally; Mallinckrodt's significant levels of intangible assets and related impairment testing; natural disasters or other catastrophic events; Mallinckrodt's substantial indebtedness and settlement obligation, its ability to generate sufficient cash to reduce its indebtedness and its potential need and ability to incur further indebtedness; restrictions contained in the agreements governing Mallinckrodt's indebtedness and settlement obligation on Mallinckrodt's operations, future financings and use of proceeds; Mallinckrodt's variable rate indebtedness; Mallinckrodt's tax treatment by the Internal Revenue Service under Section 7874 and Section 382 of the Internal Revenue Code of 1986, as amended; future changes to applicable tax laws or the impact of disputes with governmental tax authorities; the impact of Irish laws; the impact on the holders of Mallinckrodt's ordinary shares if Mallinckrodt were to cease to be a reporting company in the United States; the comparability of Mallinckrodt's post-emergence financial results and the projections filed with the Bankruptcy Court; and the lack of comparability of Mallinckrodt's historical financial statements and information contained in its financial statements after the adoption of fresh-start accounting following emergence from the 2023 bankruptcy proceedings; and
- (iii) risks related to Endo's business, including future capital expenditures, expenses, revenues, economic performance, financial conditions, market growth and future prospects; Endo changes in competitive, market or regulatory conditions; changes in legislation or regulations; global political changes, including those related to the new U.S. presidential administration; Endo's use of artificial intelligence and data science; the ability to obtain and maintain adequate protection for intellectual property rights; the impacts of competition such as those related to XIAFLEX®; the timing and uncertainty of the results of both the research and development and regulatory processes; health care and cost containment reforms, including government pricing, tax and reimbursement policies; litigation; the performance including the approval, introduction and consumer and physician acceptance of current and new products; the performance of third parties upon whom Endo relies for goods and services; issues associated with Endo's supply chain; Endo's ability to develop and expand its product pipeline and to launch new products and to continue to develop the market for XIAFLEX® and other branded, sterile injectable or generic products; the effectiveness of advertising and other promotional campaigns; and the timely and successful implementation of business development opportunities and/or any other strategic priorities.

The registration statement on Form S-4 filed with the SEC describes additional risks in connection with the proposed transaction. While the list of factors presented here is, and the list of factors presented in the registration statement on Form S-4 are, considered representative, no such list should be considered to be a complete statement of all potential risks and uncertainties. For additional information about other factors that could cause actual results to differ materially from those described in the forward-looking statements, please refer to Mallinckrodt's most recent Annual Report on Form 10-K and subsequent Quarterly Reports on Form 10-Q, and other filings with the SEC, which are available from the SEC's website (www.sec.gov) and Mallinckrodt's website (www.mallinckrodt.com) and Endo's most recent Annual Report on Form 10-K and subsequent Quarterly Reports on Form 10-Q and other filings with the SEC, which are available from the SEC's website (www.sec.gov) and Endo's website (www.endo.com). There may be other risks and uncertainties that we are unable to predict at this time or that we currently do not expect to have a material adverse effect on our business.

The forward-looking statements made herein speak only as of the date hereof and Mallinckrodt and Endo do not assume any obligation to update or revise any forward-looking statement, whether as a result of new information, future events and developments or otherwise, except as required by law. Given these uncertainties, one should not put undue reliance on any forward-looking statements.
